

Flyer Design Assignment
as an appetizer for the class project
(Due date: 11:59 pm September 23, 2021)

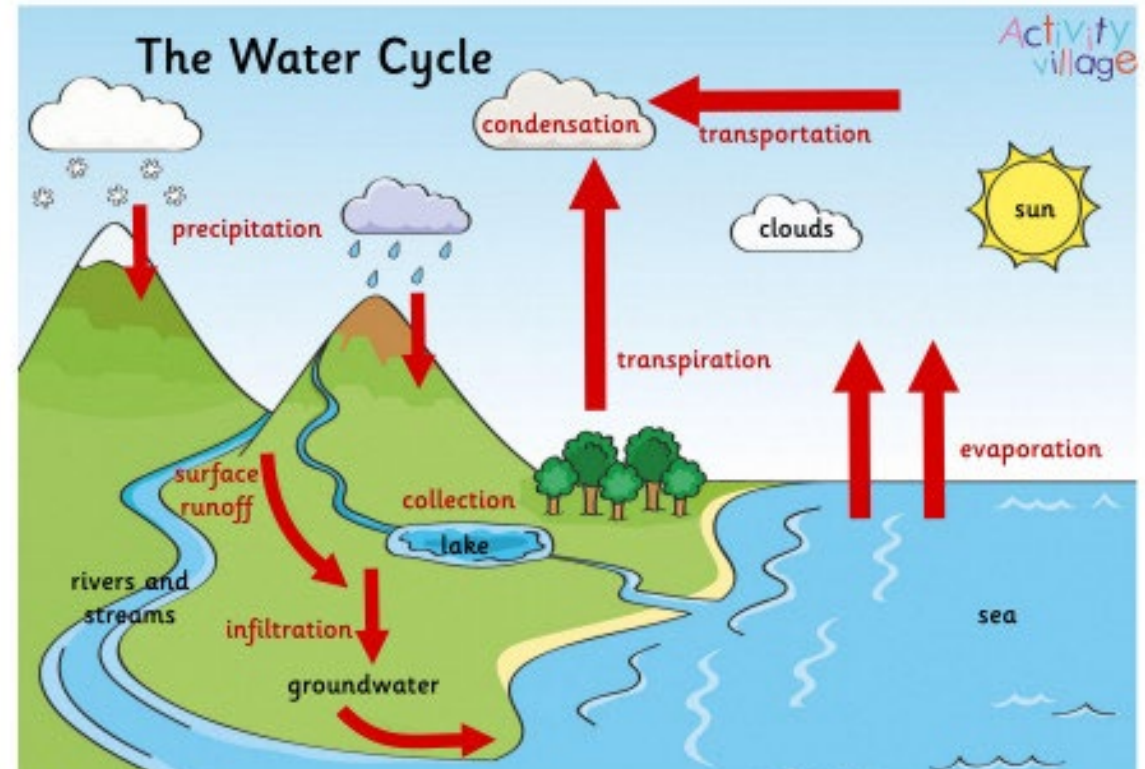

Theme: Major concepts of water cycle and environmental impacts, such as contaminant fate in engineering systems and natural environment, or any concept related with water cycle.

Format: One-page flyer, either in PPT or PS, or other art design formats you are familiar with. Pictures can be used as a part of the flyer, if you own the IP of the pictures.

Requirement: Be creative about your concepts and design. Be vibrant and vivid in design. **Copying from existing artworks is prohibited, except minor icons/logos/labels.**
